

Father's Day is around the corner, and if getting Dad a gift is still on your to-do list, we can help you check that box off.

Consider gifting Dad with the [911Tracker T3 Vehicle Security System](#). Not only will you be helping Dad protect his car, but you'll also be helping to keep him safe.

When a T3 is installed in a vehicle, the vehicle owner is alerted the moment an unauthorized movement or a preinstalled vehicle alarm goes off. The alert will show the GPS location, speed, and direction that that vehicle is traveling, and the vehicle owner can easily connect to the 911-Operator closest to the vehicle, allowing the vehicle owner to speak directly to police within seconds of the emergency. No call center is used - saving time and money.

We are currently offering two Spring Specials, plus additional discounts if you order multiple units (also makes a great gift for grandpas and uncles).

- **T3-KS3** T3 Vehicle Security System that includes the T3 Tracker AND a 3-month Service Plan plus free shipping in the USA -- Normal price is \$275, but T3-KS3 Spring Special is only \$199. Click [here](#) for T3-KS3 Special -- Also consider \$189 per unit including 3-month Service Plan with two or more per order.
- **T3-KS12** T3 Vehicle Security System that includes the T3 Tracker AND a one-year Service Plan plus free shipping in the USA -- Normal price is \$359, but T3-KS12 Spring Special is only \$299. Click [here](#) for T3-KS12 Special -- Also consider, \$279 per unit including one-year Service Plan with two or more per order.

Tech Tip: The T3 can send the owner a text that shows their vehicle's location, speed, and direction any time they wish.

Best Regards,
Chuck Roedel
